Hertz Awards Learning Services Contract to ACS

DALLAS, TEXAS: August 28, 2008 – The Hertz Corporation (NYSE: HTZ) has selected Affiliated Computer Services, Inc. (NYSE: ACS) to provide learning process outsourcing services to meet Hertz’ human resource transformational objectives on a global basis.

“ACS has a proven reputation of helping companies transform their workforces through learning,” said LeighAnne Baker, senior vice president and chief human resources officer, Hertz. “As Hertz moves toward becoming an employer of choice, ACS Learning Services will enable us to rapidly evolve our organization through the accelerated development of our employees, which is central to ensuring Hertz’ continued leadership in a tightly competitive market.”

Under the five-year contract, ACS will provide curriculum redesign and management as well as content development and delivery; learning administration; managed learning technology and vendor management within a shared services environment. The contract was reflected in ACS’ fourth quarter fiscal year 2008 results.

“Implementing a learning strategy and infrastructure is key to the focus and success of a business transformation,” said Richard Klingshirn, executive managing director, ACS Learning Services. “ACS will provide a global roadmap to centralize Hertz’ learning organization, which will help it maintain competitive advantage. Our services for designing, building, implementing and operating large-scale, multi-lingual learning solutions will enable Hertz to realize immediate and long term cost savings and business value.”

ACS’ learning outsourcing services span the entire learning life cycle from talent management and learning strategy, to curriculum design and development services, to complete learning process outsourcing services, including a world-class hosted learning management system and

related managed administration, learner care, and support services. ACS is among a small group of providers who truly possess the capability to provide end-to-end learning outsourcing services either on a stand alone basis or in connection with its broader human capital management outsourcing services.

About ACS
